**GLOBAL TAG TAMPER EVIDENT UHF SEAL TAG**

Global Tag **TAMPER EVIDENT UHF SEAL TAG** has been developed for indoor and outdoor applications where the main need is to strongly seal an object, thanks to the steel tail, and to know if the tagged goods have been tampered.

Indeed, EPC status change indicates if the tag has been tampered or not.

It is widely used for the security management of objects such as containers, luggage, transition boxes, etc.
